

INDEX TO VOLUME 57

- Agrilus howdeni*, n. sp., 234.
 Alexander, Richard D., 101, 148, 153.
 Amphibian body cavity and oviducal eggs, insemination of, 91.
 Annual Report, Ohio Academy of Science, 243.
 Ant, *Myrmica americana*, mating activities, 371.
Aphricus knowltoni, n. sp., 200.
Aphricus neomexicanus, n. sp., 200.
Aphricus texanus, n. sp., 201.
 Aplington, H. W., Jr., 91.
- β -aroyl propionic acids, oxidation of, 26.
 Behavior, associated with sound production in insects, 101.
 Blaydes, Glenn W., 135.
 Borthwick, H. A., 357.
 Britt, N. Wilson, 90.
 Bryophytes, Ohio, studies in, 290.
 Bryozoa, marine, 1.
 Buprestidae, 234.
- Carmean, Willard H., 165.
 Chromatography, paper, detection and separation of pectic substances by, 212.
 Clifton, H. Edward, 114.
 Climbing plants, native and naturalized, Ohio, a key, 284.
 Coleoptera, 9, 70, 129, 200, 234.
 Columbus and Delaware limestones, insoluble residue studies of, 43.
 Concretions, carbonate, of Ohio shale, 114.
 Crickets, ground, song relations of, 153.
 Cropping, continuous, mycoflora associated with, 203.
Ctenicera acuta (Knull), 202.
 Curculionidae, 129.
 Curculionoidea, 38, 70.
 Cushing, Judith Feil, 224.
 Cyclonic and frontal activity, Ohio, summer, 1953, 217.
 Cytology: *Helianthus* X *Kellermani*, 65.
 Cytoplasmic inheritance of plastids, 135.
- De Selm, H. R., 284.
 Dodson, Vance H., 29.
- Edmunds, Lafe R., 313.
 Elateridae, 200.
 Electrophoresis, paper, detection and separation of pectic substances by, 212.
 Ellett, G. W., 236.
Eumeces fasciatus, range extension in Ohio, 90.
- Fischer, Jesse E., 75.
 Fisher, T. Richard, 171.
 Forest soils, structure, 165.
 Forest tree physiology, research at Ohio Agri. Exper. Sta., 365.
- Forest Tree Physiology Symposium, (7 papers), 321.
 Forsyth, Jane, 81.
 Fungi, parasitic, of Ohio plants, 236.
 Fusulinids, Pennsylvanian rocks, of Ohio, 257.
- Geist, Robert M., 193.
 Geologic relation to streamflow, 11.
 Giesy, Robert M., 290.
 Gilmore, L. O., 229.
 Glacial deposits, Ohio, radioactivity for correlation, 375.
 Goldenseal, history of, in Ohio, 169.
 Gorby, Milan G., Jr., 169.
 Goslin, William E., 365.
 Gryllidae, 148.
- HacsKaylo, Edward, 350.
 HacsKaylo, John, 365.
Hamaba minima (Blatchley), n. comb., 39.
Helianthus hybrid, 65.
Helioopsis helianthoides (L), comb. nov., 190.
Helioopsis, taxonomy of the species, 171.
 Heritability and twin efficiency values, relationship between, 229.
 Herr, Leonard J., 203.
 Human engineering, 193.
 Hybrid, *Helianthus*, naturally occurring, cytological analysis of, 65.
- Insect sound and behavior, 101.
- Jackson, R. R., 43.
 Johnson, Warren T., 21.
- Kannowski, Paul B., 371.
 Kannowski, Phyllis M., 371.
 Kaolinite, metal chlorides, reaction between oxygen and, 29.
 Koffler, Anna H., 169.
 Knull, Josef N., 9, 200, 234.
- Laird, R., 229.
 La Rocque, Aurèle, 81.
 Laxation, relationship to, by disaccharides, 75.
 Leyton, L., 337.
 Lieftinck, John E., Jr., 375.
 Light, effect on tree growth, seed germination, 357.
 Limestones, Columbus and Delaware, in Ohio, 43.
 List, Ellis W., Jr., 26.
 Long, Robert W., Jr., 65.
- Macrorhoptus griseus*, n. sp., 72.
Macrorhoptus sidalceae, n. sp., 71.
 Meyer, Bernard S., 322.
 Mineral nutrient requirements, forest trees, 337.
 Moinuddin, Jesse Fischer, 224.

- Molluscan faunules, Pleistocene, Ohio, 81.
 Moore, C. V., 43.
 Mosquito, note on biology of, in Mississippi, 313.
 Moss collections, Ohio, 15.
 Mycoflora, soil, associated with continuous cropping, 203.
 Mycorrhizae, of trees, 350.

Nemobius melodius, n. sp., 148.
 Norstog, Knut J., 315.

 Ohio Academy of Science, annual report, 243.
 Ohio limestones, residue studies of, 43.
Ophyra aenescens, biology and morphology, observations on, 21.
 Oviducal and body cavity eggs, insemination of, amphibia, 91.
 Oxidative rates of rat intestinal epithelium homogenates, 224.
 Oxygen, reaction with kaolinite and metal chlorides, 29.

 Pandey, K. K., 135.
 Parasitic fungi, 236.
 Pectic substances, detection and separation of, 212.
Phylactellipora, 1.
 Pine needles, analyses of, 345.
 Plant physiology, recent trends, 322.
 Plastids, cytoplasmic inheritance of, 135.
 Pleistocene, molluscan faunules, Ohio, 81.
Polydrusus hassayampus, n. sp., 131.
Polydrusus, notes on N. Amer. species of, 129.
 Polyembryony, *Hierochloe odorata*, 315.
Psorophora discolor (Coquillett), 313.

 Rat, intestinal epithelium, oxidative rates of homogenates of, 224.
 Reinheimer, John D., 26.
 Robinson, Harold, 15.
 Rogick, Mary D., 1.
 Rudd, Robert D., 217.

 Sayre, J. D., 345.
 Schneider, William J., 11.
 Shale, Ohio, carbonate concretions of, 114.
 Sleeper, Elbert L., 38, 70, 129.
 Smyth, Pauline, 257.
 Soils, forest, structure of, 165.
 Song relationships of ground crickets, 153.
 Sound production, associated behavior, in insects, 101.
 Streamflow, relation of geology to, 11.
 Struble, R. A., 43.
 Summerson, C. H., 43.
 Sutton, T. S., 75.
 Swanson, C. A., 331.

 Thomas, Edward S., 148.
 Translocation, in trees, 331.
Trichacorynus protractus (Horn), n. comb., 41.
Trichacorynus sulcirostris Blatchley, n. synonymy, 41.
 Twin uniformity trials, heritability and efficiency values calculated from, 229.

 Ujejski, Ludwik, 212.

 Venard, Carl E., 21.
 Vibrograms, insect sound and behavior, 101, 153.
Vitellius texanus, n. sp., 9.
